

Investor presentation, October 2018

Becoming the leader in intelligent cargo handling

Why invest in Cargotec?

♥ Our target:
To become the leader in intelligent cargo handling

Every 4th container in the WORLD is moved by Kalmar solution

♥ Several favorable megatrends support our growth prospects

Every other ship in the WORLD has MacGregor equipment on board

♥♥ We have strong brands and a loyal global customer base

● Transformation from equipment provider into a leader in intelligent cargo handling

● Growing services and software business increase stability of our business

● Unique position to benefit from the growth prospects in port automation and software

Currently, only 40 of the world's 1200 terminals are automated or semi-automated. Port automation increases energy and cost efficiency as well as employee safety.

€ **Financial targets**

- Grow faster than the market
- Increase service and software sales to 40% of net sales, min. EUR 1.5 billion in 3-5 years
- Target 10% operating profit and 15% ROCE in 3-5 years
- Target gearing <50% and increasing dividend in the range of 30-50% of EPS, to be paid twice a year

Investment highlights

Investment highlights: Why invest in Cargotec?

1. Technology leader and strong market positions, leading brands in markets with long term growth potential
2. Our vision is to become the global leader in intelligent cargo handling
3. Growing service & software business and asset light business model are increasing stability
4. Capitalizing global opportunities for future automation and software growth
5. On track for profitability improvement and to reach financial targets

1. Technology leader and strong market positions, leading brands in markets with long term growth potential

Global megatrends

- Globalisation and trade growth
- Urbanisation
- Growing middle class

Growth drivers

- Container throughput growth
- Construction activity
- Automation
- Digitalisation

Competitive advantages

- Strong brands
- Full automation offering
- Technology leadership

Market position

- #1 or #2 in all major segments

2. Our vision is to become the global leader in intelligent cargo handling

VISION	GLOBAL LEADER IN INTELLIGENT CARGO HANDLING	
MUST-WIN BATTLES	WIN THROUGH CUSTOMER CENTRICITY We help our customers achieve their goals by aligning our offering and way of working to serve them better.	ACCELERATE DIGITALISATION We build and expand our digital solutions to offer a great customer experience and more efficient business processes.
	ADVANCE IN SERVICES We extend our offering towards intelligent solutions that enable us to serve our customers wide across their lifecycle.	PRODUCTIVITY FOR GROWTH We focus on activities that add value and benefit our customers and us by developing our business operations and common platforms.

3. Growing service & software business and asset light business model are increasing stability

Service and software* sales

MEUR

Asset light business model with a flexible cost structure

- Kalmar and Hiab: efficient assembly operation
- MacGregor: efficient project management and engineering office: > 90% of manufacturing and 30% of design and engineering capacity outsourced
- No in-house component manufacturing

Next steps to increase service and software sales:

- All new equipment connected by 2018
- Build on Navis position as industry leader
- Increase spare parts capture rates
- Boost service contract attachment rates

4. Capitalizing global opportunities for future automation and software growth

Industry trends support growth in port automation:

- Only 40 terminals (out of 1,200 terminals) are automated or semi-automated currently globally
- Ships are becoming bigger and the peak loads have become an issue
- Increasing focus on safety
- Customers require decreasing energy usage and zero emission ports
- Optimum efficiency, space utilization and reduction of costs are increasingly important
- Shortage and cost of trained and skilled labour pushes terminals to automation

Significant possibility in port software:

- Container value chain is very inefficient: total value of waste and inefficiency estimated at ~EUR 17bn
- Over 50% of port software market is in-house, in long term internal solutions not competitive
- Navis has leading position in port ERP

Customers consider their automation decisions carefully

- Shipping line consolidation
- Utilisation rates of the existing equipment base
- Container throughput volumes
- Efficiency of the automation solutions

Automation creates significant cost savings*

Labour costs	60% less labour costs
Total costs	24% less costs
Profit increase	125%

* Change when manual terminal converted into an automated operation

5. Clear plan for profitability improvement and to reach financial targets

Growth

Target to grow faster than market

- Megatrends and strong market position supporting organic growth
- M&A potential

Service and software

Targeting service and software sales 40% of net sales, minimum EUR 1.5 billion in 3-5 years*

Balance sheet and dividend

Target gearing < 50% and increasing dividend in the range of 30-50% of EPS, dividend paid twice a year

Profitability

Target 10% operating profit and 15% ROCE in 3-5 years*

Higher service and software sales key driver for profitability improvement

Cost savings actions:

- 2018 EUR 13 million (Lidhult assembly transfer in Kalmar)
- 2018 EUR 13 million in MacGregor
- 2020 EUR 50 million (indirect purchasing and new Business Services operations)

Product re-design and improved project management

Sales and operating profit** development

*Target announced in September 2017
 **Excluding restructuring costs
 LTM=Last 12 months (Q3/17-Q2/18)

Kalmar

Container throughput still forecasted to grow year on year

2013-2014 Drewry Global Container Terminal Operators Annual Report 2013

Flexible and scalable Navis TOS software

Kalmar's operating environment

Provides integrated port automation solutions including software, services and a wide range of cargo handling equipment

TOS coordinates and optimises the planning and management of container and equipment moves in complex business environments.

Navis provides also maritime shipping solutions:

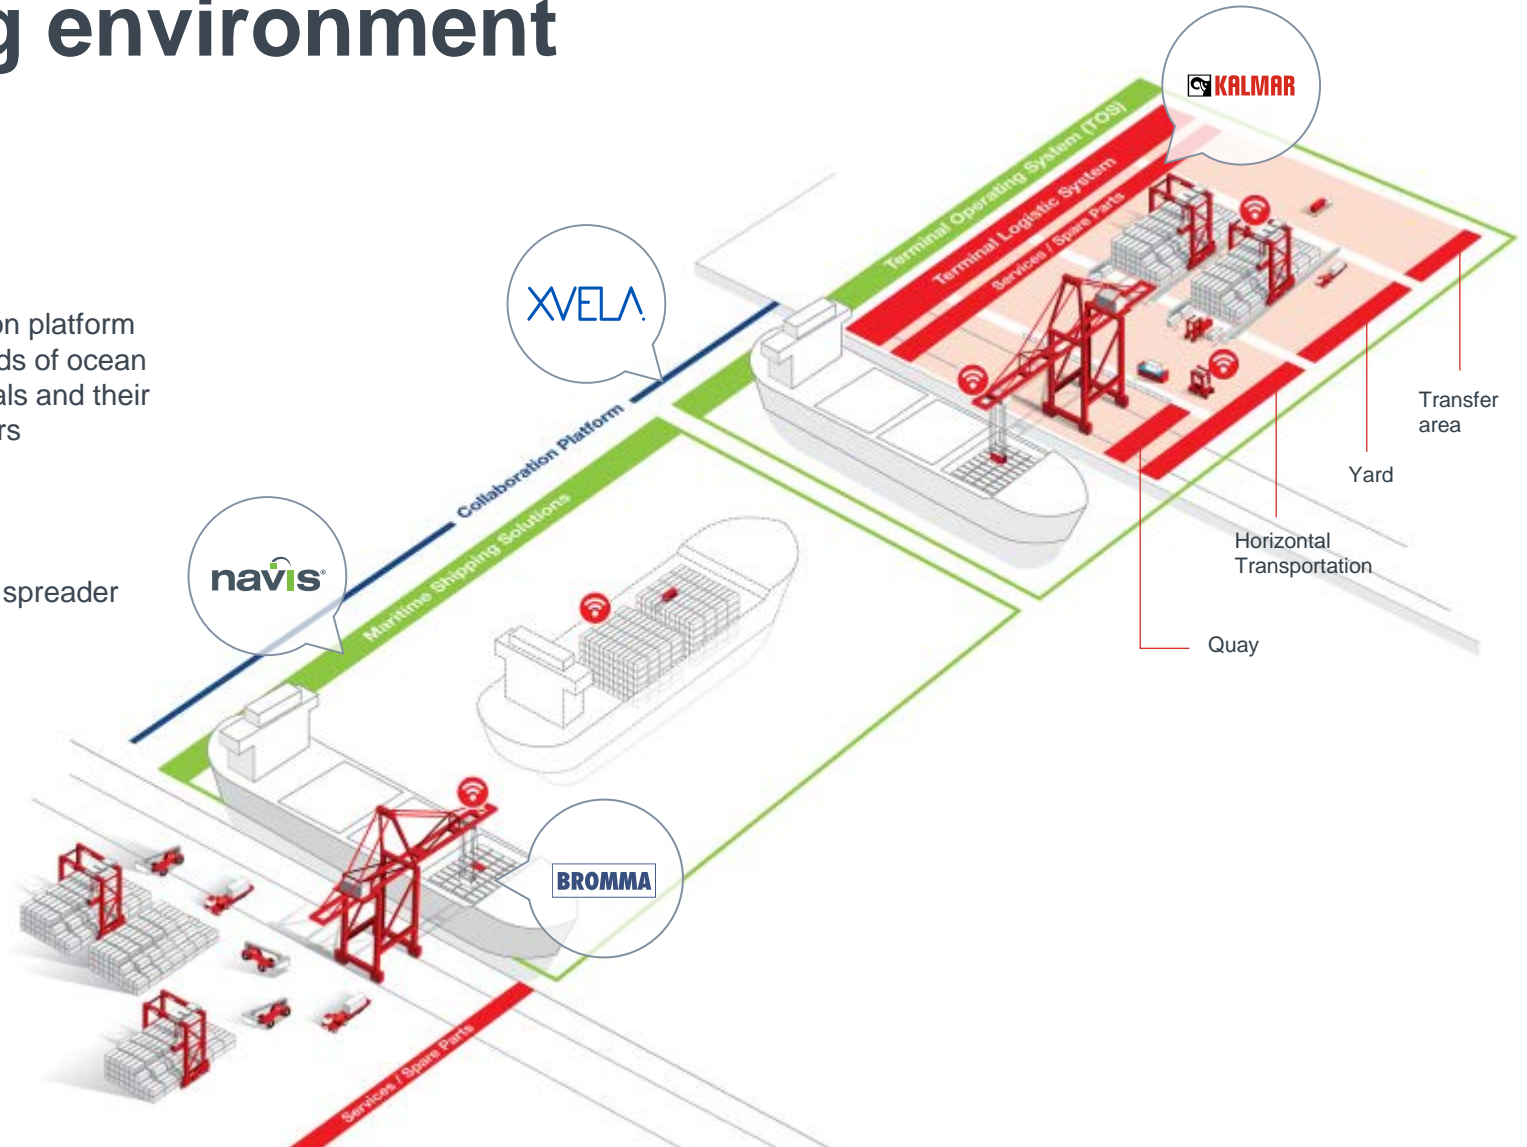

- Stowage planning
- Vessel monitoring
- Loading computer
- Route planning

The collaboration platform serving the needs of ocean carriers, terminals and their shipping partners

Industry leading spreader manufacturer

XVELA provides benefits to ocean carriers and terminal operators

- Today's container supply chain is a fragmented and siloed framework
- Information sharing between parties is not optimally structured
 - Forms of communication today include email, phone calls, EDI, paper plans
 - Problems: incomplete data, errors, information not available on time
- In-house developed XVELA is a many-to-many platform to solve these issues
 - Real-time stowage collaboration
 - Port-to-port visibility and collaboration
 - Synchronisation of planning between carriers and terminals

Benefits of XVELA:

- Faster vessel turn times
- Operational efficiencies
- Cost savings

Services provide our biggest medium term growth opportunity

*) Cargotec estimate

Attractive megatrends and growth drivers

MEGA TRENDS

- **Urbanization** and **Consumption** growth driving needs for efficiency
- **Digitalization** and **Connectivity** enabling new **business** solutions

MARKET GROWTH

- **North America** and main **European** markets continue to grow
- **Developing markets** strong load handling equipment penetration potential

KEY SEGMENTS

- **Construction, Waste & Recycling, Logistics** and **Governmental** business segments show continued growth projection

PRODUCT OFFERING

- **New applications** market and segment growth potential
- Developing for increasing demand in **Electrification** and **Automation**

SERVICE SOLUTIONS

- Growing demand for comprehensive **life-cycle service offerings** and tailored **business solutions**

Hiab's key growth drivers

Cranes

Gain market share in big loader cranes and crane core markets

Tail lifts

Enter fast growing emerging markets and standardise and globalise business model

Truck-mounted forklifts

Accelerate penetration in North America and Europe

Services

Increase spare parts capture rates driven by connectivity and e-commerce

MacGregor

We are an active leader in all maritime segments

MacGregor's asset-light business model gives flexibility

Cost-efficient scaling

90% of manufacturing outsourced

30% of design and engineering capacity outsourced

Recent progress

We have increased EBIT* margins since 2013 through operational improvements

Previously announced cost savings programmes proceeding

- EUR 50 million annual group-wide savings from 2020 onwards
 - EUR 15 million cumulative savings at the end of Q2/18
- EUR 13 million in 2018 (MacGregor)
 - EUR 5 million savings in H1/18
- EUR 13 million in 2018 (Kalmar)
 - Relocation of assembly operation completed
 - EUR 4 million savings in H1/18
- Product redesign and project management improvement continues in 2018

Group wide EUR 50 million cost savings programme proceeding faster than expected

WHY

- Investments in common systems as enabler
- EUR ~600 million addressable indirect cost base

WHAT

- Reductions in indirect purchasing spend (EUR 30 million), and more efficient support functions (EUR 20 million)

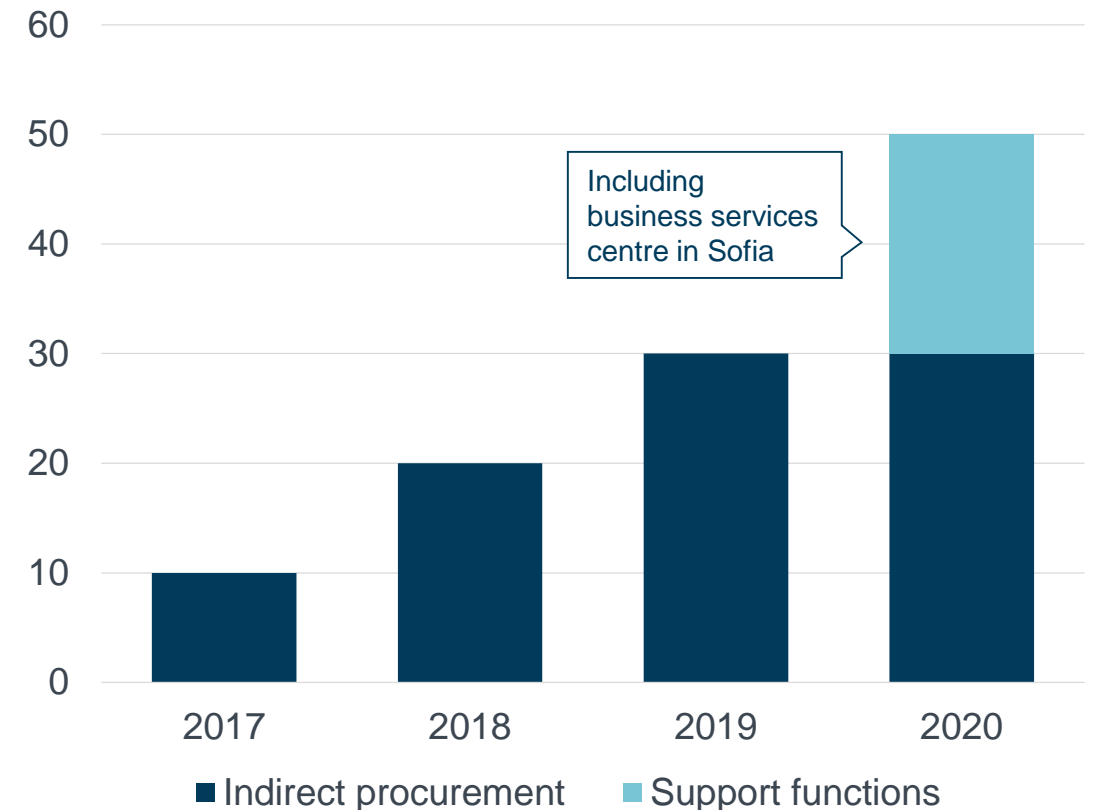

HOW

- Central procurement organization to drive indirect procurement cost and efficiency
- Establishing support function services in Sofia
- Automation in Finance, HR, information management and procurement

RESULTS

- EUR 10 million savings realised in 2017 and additional EUR 5 million in H1/18

Expected savings compared to 2016 cost level, MEUR

We have established Cargotec Business Services in Sofia to improve support function efficiency by EUR 20 million

- Savings from consolidation, outsourcing of certain activities, labour arbitrage and robotics
- Scope: Finance, Human Resources, Information Management and Indirect Procurement services primarily from Sofia, Bulgaria
- Good progress in establishing Cargotec Business Services
 - Cargotec Business Service (CBS) centre in Sofia, Bulgaria officially opened 30 January 2018

Targeting EUR 1.5 billion service and software sales in 3-5 years

Cargotec service sales total EUR 907 million in 2017

- Spare parts the biggest category, around 50% of total service sales
- Maintenance around 30% of total service sales

Kalmar

MEUR	2017
Service orders received	432
Service sales	445

- Spare parts
- Maintenance contracts
- Crane upgrades
- Used equipment

Hiab

MEUR	2017
Service orders received	262
Service sales	258

- Spare parts
- Maintenance
- Installation
- Used equipment

MacGregor

MEUR	2017
Service orders received	203
Service sales	205

- Spare parts
- Maintenance
- Projects and Voyage Data Recorder
- Lashing equipment, after sales

M&A strategy focusing on bolt-on acquisitions

Key acquisition criteria

Contribution to 15% ROCE target

Recurring business

Increase the potential for services through larger installed base and increased presence

Group gearing long term target of 50%

Net debt and gearing

MEUR

*Year 2017 figures have been restated according to IFRS 15

M&A focus by business area:

Kalmar

Expand service footprint and software offering

Hiab

Expand geographical presence, service and product offering

MacGregor

Focus on distressed assets and software and intelligent technology

Progress in M&A in 2017

RAPP MARINE GROUP

Strengthen MacGregor's offering for the fishery and research vessel segment

Sales

EUR 40 million

in 2017

Around 30% of sales from services

ARGOS

Hiab entrance to Brazilian loader crane market

Sales

EUR 6 million

in 2017

INVER PORT SOLUTIONS

Broaden Kalmar's existing service capabilities throughout Australia

Sales

EUR 5 million

in 2017

Acquisition of EFFER to support Hiab's global offering

Effer in brief

Global leader in the heavy cranes segment

2017 sales around EUR 71 million and operating profit EUR 6 million

Distribution network of over 100 dealers covering 60 countries globally

Strategic rationale

Effer complements Hiab's loader cranes portfolio and expands the offering in heavy cranes

Leverage Hiab's global service network to boost Effer service sales

Strengthen Hiab's position in Effer's core market areas

Transaction highlights

Enterprise value EUR 50 million

Acquisition is subject to regulatory approvals expected to be received in H2 2018

Acquisition of TTS marine and offshore business announced 8 February 2018

Strategic rationale

Combination of two highly complementary businesses producing greater scale and diversification

- By acquiring TTS marine and offshore business, Cargotec will strengthen MacGregor's portfolio and market position in key areas in cargo and load handling markets

The acquisition will strengthen MacGregor's service growth potential and service installed base

Position in China through strategic joint ventures with Chinese state owned ship building companies

Unlocking potential significant synergies

- Based on preliminary estimates, potential cost synergies are estimated to be around EUR 30-35 million on annual level and are expected to be reached within 3 years from closing

TTS overview

TTS provides equipment for the marine and offshore industries through subsidiaries in 15 countries

TTS Group's main products are a wide range of cargo handling and offshore cranes, RoRo access systems, hatch covers, winches and related services.

The company's service business includes spare parts, maintenance, inspections, modernisation, conversion and training. With a worldwide workforce of around 930 employees, TTS has more than 50 years of experience in the marine industry.

The group has subsidiaries in Belgium, Brazil, China, Germany, Greece, Italy, Korea, Norway, Poland, Singapore, Sweden, UAE, USA and Vietnam. TTS operates mainly through three 50/50 owned joint venture companies in China.

TTS product portfolio

RoRo, Cruise & Navy

Container, Bulk &
Tank Vessels

Multipurpose &
General Cargo

Offshore Vessels

Services

Financial summary

MEUR, 2017

	TTS business planned to be acquired ¹	MacGregor
Revenues	211	576
Services (as % of revenues)	26%	33%

¹ Based on exchange rate EUR / NOK: 9.35

The presented TTS business financial figures are calculated based on full consolidation, but their actual impact on Cargotec's financials is subject to applied post-acquisition consolidation method of the joint ventures included in the acquisition.

Transaction highlights

Transaction terms and structure	Financing	Deal certainty and timing
<p>Acquisition of TTS business</p> <ul style="list-style-type: none">▪ TTS Group ASA and its shipyard solution business, TTS Syncrolift AS, are excluded from the deal <p>Only certain HQ costs will be assumed</p> <p>Total consideration of EUR 87m on a debt free / cash free basis, with customary closing adjustments</p>	<p>Transaction consideration will be covered by Cargotec's available cash and financing</p>	<p>More than 2/3 of TTS shareholders supports the transaction and have committed to vote in favor of the deal in TTS Group's Extraordinary General Meeting. Furthermore, more than 2/3 of convertible bondholders have made the same commitment, if any of their bonds are converted to shares prior to the Extraordinary General Meeting</p> <p>The acquisition is subject to regulatory approvals from competition authorities, which are expected to be received during the second half of 2018</p>

Shaping the portfolio

Two divestments made during Q2/18

Divestments

- Siwertell and Kalmar Rough Terrain Center
- Both outside of Kalmar's core areas of container ports, heavy industry and distribution

Revaluation of RHI shares, non-cash EUR 30 million charge

Our target is to reach 10% EBIT in the next 3-5 years

Highlights of Q2 2018 – Strong growth in orders received

23% growth in orders received

- Growth in Kalmar and Hiab
- Service orders increased by 16%

Solid growth in service sales continued

Operating profit* decreased

- Kalmar's operating profit declined due to less favorable business mix
- Negative impact from currencies for Hiab continued
- MacGregor at black despite sales decline

Restructuring costs of EUR 35 million weakened the result

*) Excluding restructuring costs

Market environment in H1 2018

Growth in number of containers handled at ports continued

- Customers' decision making related to automation solutions is slow and starting mainly with phased investments

Construction activity on good level

- Good development continued in Europe and the US

Market improved in merchant sector, but orders remained below historical levels

- In offshore, interest level has increased, but activity remains on a low level

Global container throughput (MTEU) – Key driver for Kalmar

Sustainability

Sustainability is a great business opportunity

We serve an industry, which produces the majority of emissions as well as GDP in the world

- Inefficient industry with potential to improve

Our vision to be the leader in intelligent cargo handling also drives sustainability

- Increasing efficiency and life-time solutions

We are in a position to be the global frontrunner, setting the sustainability standards for the whole industry

- We are ready to shape the industry to one that is more sustainable

Sea Freight Transport is by far the most sustainable transport mode in terms of emissions

Compared to transportation of goods

→ by trains, sea freight emits
~2-3 times less emissions

→ by trucks, sea freight emits
~3-4 times less emissions

→ by air cargo, sea freight emits
~14 times less emissions

Sustainability is our competitive advantage

Sales account for around 18%* of the total revenue in 2017:

Significant R&D and digitalisation investments drive the growth of offering for eco-efficiency

Systems efficiency

- Visibility to identify inefficient use of resources and fuel
- Software and design system

Efficiency for environmental industries

- Offering to support the operations in environmental industries
- Cargotec solutions for environmental industries

Emission efficiency

- Technology to enable fuel and emission efficient offering
- Products with features to decrease fuel usage and avoidance of maritime hydraulic oil emissions

Resources efficiency

- Service enabling the extended usage of products or new applications
- Product conversions and modernizations

Key to more sustainable cargo handling business is solution development

Waste in cargo handling business due to inefficiencies ~17 billion euros

~2.5 mil barrels (1.8 mil CO2 equivalent tonnes) of fuel savings enabled by Cargotec port equipment solutions during past 6 to 10 years

19 mil CO2 in shipping industry annually
For moving empty containers

~31 900 CO2 eqv. tonnes

of emissions from Cargotec factories annually

Cargotec sustainability managed with clear policies, processes and KPIs on varying areas

- Cargotec is a supporter of UN Global Compact and other major international sustainability initiatives
- We have a clear governance on sustainability issues with Board of Directors overview on the subject
- Safety is our key priority and we have clear improvement program to further decrease our current IIFR rate of 6.1
- Human rights supply chain management and energy on the agenda in 2018

PARIS2015
UN Climate Change Conference
COP21-CMP11

Performance highlights 2017

82% of employees conducted the code of conduct e-learning tool

Permanent Code of Conduct panel and case investigation process

EMPLOYEE ENGAGEMENT INDEX

Supplier code of conduct sent to all strategic suppliers

Offering for eco-efficiency 18% of total sales

LEADERSHIP INDEX*

INDUSTRIAL INJURY FREQUENCY RATE*

SOCIAL RESPONSIBILITY INDEX*

CERTIFICATION COVERAGE*

COMPASS* COMPLETION RATE

*IIFR and number of injuries cover Cargotec production sites

**Number of injuries per million hours worked

*Employee view about the company social responsibility

*Share of certified sites' sales volume of the total sales volume

**Number of injuries per million hours worked

Kalmar appendix

The current replacement market size for key terminal equipment is EUR 1 billion annually and the market is expected to double in the next decade

Total Capacity MTEU

Replacement after lifetime of equipment

The replacement market will grow in coming years, as the container terminal capacity has expanded significantly during the last two decades.

Average lifetime of type of equipment:

- STS - 25 yrs
- RTG - 15 yrs
- SC - 8-10 yrs
- RS/ECH/TT – 8 yrs

Source: Drewry reports: Global Container Terminal Operators 2001-2016 Note: 1995-2000 capacity is estimation based on the assumption that the utilisation rate has been between 70-72% in that period. 2016-2020 forecast based on Drewry's Global container terminal operators report, published in August 2016

Consolidation leading to five dominant container terminal operators in 2020

24 Global Terminal Operators' total forecasted capacity increase 2015-2020 is 125 Mteu, increasing 3.1% p.a to 892 Mteu by 2020

Terminal operators consolidating, recent M&A activity:

- COSCO and China Shipping merged
- APMT bought Group TCB
- CMA CGM bought APL
- Yildirim bought Portugese Tertir group and the company is also eyeing Ports America

Source: Drewry
* Capacity counted once in all terminals where shareholding held by both sub operators

Global container throughput and capacity development

Source: Drewry Container terminal operator annual review, 2002-2016

60% global of container throughput is expected to take place in APAC in 2018

Global container throughput expected to grow 6.5% in 2018

- APAC +7.0% (+31 mteu)
- EMEA +6.3% (+12 mteu)
- AMER +5.0% (+5 mteu)

→ 63% of growth will come from APAC

Source: Drewry: Container forecaster Q2 2018

Three alliances controlling about 80% of global container fleet capacity

Most probably in mid 2018 there will be only 9 major global shipping lines

Total: 17

- The arrows indicate changes, confirmed or planned, through M&A or JV over the last 18 months. Hanjin bankrupt. Hyundai isn't currently officially part of any alliance, but formed a cooperative relationship with 2M.
- Ocean Network Express (ONE) launch April 2018.
- COSCO Shipping's planned acquisition of OOCL expected to completed by the end of June
- Analyse excludes Zim, PIL and Wan Hai

Sources: Drewry, Alphaliner, Cargotec

Ship sizes increasing dramatically

- The largest containership in the fleet has nearly tripled since 2000
- The average size of new builds doubles between 2009 and 2014

Source: Drewry November 2015

Hiab appendix

Global truck volumes

IHS predicts global truck volumes to decrease driven by China developments & regional differences in the EMEA region
